

Basic Information

This assignment is due on Gradescope by **1:30 PM on Friday, September 6.**

Make sure you understand MHC [honor code](#) and have carefully read and understood the additional information on the [class syllabus](#). I am happy to discuss any questions or concerns you have!

A major component of this class is helping you understand *why* the mathematics you use works the way it does. To that end, make sure you show all your work as you will be graded on the *process* you use, not just your final answer. And if a question asks you to explain why something is true, be sure to answer that part of the question in complete sentences. Remember, answers without any work will receive 0 points.

Initial Questions

Why are you taking this class?

What are some possible disciplines you might major or minor in?

What is your favorite math class ever, and why?

What is your least favorite math class ever, and why?

Were there any topics on the [Review Problems](#) that you struggled with?

Anything else you would like me to know?

Turn-In Problems

1.1: 2, 6, 16

Additional Problems (to do on your own, not to turn in)

1.1: 1, 5
